Panorama Walkingpath (Panoramaweg)

We start on the former railway line at the entrance to the village past the old station building. Climbing constantly this trail leads past orchards and vineyards over the Glener Viadukt to the Weiler Glen, then through the long illuminated tunnel above Montan to Schloß Enn and on to the Kalditscher Höfen over trail no. 3. Opposite the holy image the path leads in turn to the former railway line. You can continue on the path here to Pausahof and then on to Kaltenbrunn. Or turn off at Pausahof into the old Fleimstaler Straße, cross the national road and reach the opposite side of the valley on to the 'Schwarzenbachwanderweg' via Piegberg and Holen to Aldein bridge. Cross the main road at Brückenwirt again and start the short steep ascent to the Panorama walk. From here you return to Montan. Alternatively you can take the scheduled bus at Brückenwirt.

An extensive variation leads from Aldein Bridge via Karnol and Auer to Montan (walking time approx. 2 hours). You can also make a detour of Cislone Berg from Kaltenbrunn via Truden and Mühlen to Montan.

Walking time: approx. 3 hours
